

# MANAGING GOUT IN DIALYSIS: INSIGHTS FROM HEALTH PRACTITIONERS

We are conducting an interview study to better understand prescribers' views, experiences, and practices with gout management in patients with gout and kidney failure initiated on dialysis

## *Who can participate?*

- Practicing Rheumatologists and nephrologists/ renal nurse practitioners
- Willing to participate in a 30 minute confidential interview, online through Zoom or phone

## *What to Expect?*

- A one-on-one interview discussing your experiences and views on gout management in dialysis
- All information shared will be kept confidential and anonymized in our reports

## *Why Participate?*

- Provide insights to complement the understanding of research findings
- Contribute to research that would guide and inform future clinical studies
